

## SECTION 3 - ATHLETE ELIGIBILITY REQUIREMENTS

### **BDP 3.1 AMATEURISM**

All athletes competing in a GCG sanctioned event must abide by the regulations of GCG, FIG and the International Olympic Committee (IOC) governing amateur status.

### **WAG 3.2 ELIGIBILITY** **DI**

- a) A athlete participating in a WAG national level competition (see 5.1) must:
- be duly affiliated member of her P/T association and of GCG; membership must be with the province of residence;
  - be member in good standing (not currently being sanctioned) with GCG and her P/T Association;
  - be a Canadian Citizen OR have permanent resident status OR have been a full-time resident of Canada for at least two (2) years prior to the date of the competition;
  - not compete or not have competed internationally for a country other than Canada.

In special cases and after consultation with the P/T Association, GCG may authorize a HP athlete who is not in good standing with her P/T association to compete at a WAG national level competition/event. The intent is to protect the athlete's right to compete in a situation where she is not personally at fault or she has no control over the situation.

- b) A Canadian citizen living outside Canada who wishes to compete at National level competitions must be a member of a club affiliated with a P/T Association. The athlete must follow the provincial and national rules regarding participation at the National level competitions.
- c) A Canadian citizen who has dual citizenship and competes internationally for a foreign country may not receive High Performance, National Team or Carded athlete status. Upon request from the foreign country, she may compete out-of-competition in the Qualification of the Canadian Championships only. She may not compete in or out of competition at Elite Canada.
- d) A foreign athlete not representing or not having represented her own country at an international competition and who has resided in Canada for at least 12 months in a row but has not yet resided for at least two years before her request may compete out-of-competition at Elite Canada and the Canadian Championships provided that she has:
- submitted a written request to the PM-WAG;
  - satisfied the requirements of her P/T related to the screening activity for Elite Canada;
  - obtained the permission of the PM-WAG;
  - have competed at the preceding Elite Canada to compete at the Canadian Championships.
- e) A foreign athlete not residing in Canada may be permitted to take part in a

WAG national level competition if approval is granted by the PM-WAG. Only an official request made to GCG on behalf of the athlete by her National Federation will be considered. The athlete could be allowed to take part in the Team, All-Around and/or Apparatus Finals competition(s) in addition to the Canadian athletes. She is eligible for All-Around and/or Apparatus Finals duplicate rankings and medals. This is valid also for an athlete who resides in Canada for less than 16 months and intends to return to her country at the end of the (up to) 16 month period.

For purpose of WAG selection - HP lists, NT lists, Carded athletes lists, international competitions, etc. - the foreign athlete will be considered as an out-of-competition athlete and her results tabulated separately.

- f) Exceptionally, the WAG Program Committee may authorize an underage athlete to attempt to earn HP status in the Novice category at Elite Canada if:
- a request is made by her club and her P/T Association;
  - the application is supported by the WAG National Team Director who will state that this athlete is exceptionally talented and is physically and mentally ready to compete in the HP Novice category;
  - the athlete has met the screening standard and requirements in effect.
