5.2.1 Registration of Coaches for Elite Canada and Canadian Championships

- a) For the JO 9 and the JO 10 categories, a P/T may register two official team coaches in each category and no more than one coach per athlete registered.
- b) For Novice, a P/T or club may register one personal coach per individual athlete with a maximum of two per club.
- c) For the Junior and Senior categories, a P/T or club may register up to two coaches per athlete and a maximum of three per club unless the club has six or more athletes, in which case the club may register four coaches.
- d) A coach wishing access to the training, warm-up or competition floor at a WAG national level competition must be certified NCCP Level 3 or be Competition Development 2 certified. A coach who is employed on a full time basis by an organization based outside Canada is exempted from this requirement. Refer to section 6 of the WAG Program Manual for detailed information.
- e) A coach residing permanently in Canada participating in a WAG national level competition must be:
 - duly affiliated members of his/her P/T association and of GCG (based on the province of residence);

- b) On Uneven Bars, two coaches are allowed on the floor to adjust the bars, set the mats and the board.
- c) Once the green light is on:
On Vault, one coach is allowed by the table and one by the vault number.
On Uneven Bars, one coach is allowed near the apparatus to spot and remove the board. Permission may be granted by the D1 judge for a second person to be near the apparatus to remove the board if spotting is required for an element performed immediately after the mount.
On Floor, two coaches are allowed if mats have to be moved in different corners in a short period of time.
For all apparatus, only one coach may talk to the athlete when two coaches are allowed on the floor.

Coaches accredited for the Championships in a given category may have access to the seating/waiting area for another category provided that the rules regarding the maximum number of coaches are abided by.

- d) When applicable, replacement of coaches in the designated seating/waiting area (tagging) is authorized as long as the maximum number of coaches is abided by. 5.4.2 Directives for the Screening Activity

5.4.2.1 General parameters

- a) A P/T Association may hold only one screening activity. The screening activity must be held between November 15 and the third Monday of January. It will be the responsibility of the PTO to identify potential late registration fees that may occur should the final screening take place after the established registration deadline.
- b) The activity is under the responsibility of the P/T Association even if it is organized by a club.
- c) Each P/T Association must hold its own screening activity except for the Atlantic provinces who can conduct a joint screening activity and the territories who can join another screening activity.

- d) An athlete may attend the screening activity of another P/T.
- e) The screening activity must use the rules in effect for the respective category at the upcoming Elite Canada. Judging panels for screening activities must have a minimum of 2 judges per apparatus who have at least the National HP level unless authorized otherwise by the PM-WAG following receipt of a written request from the P/T Association. The judging must not be more lenient than at Elite Canada or the Canadian Championships. No screening activity may be held within two days from, or after the deadline for the registration.
- f) Athletes who have not met the standard (minimum D-Score and/or Final score) at the screening activity or who have not been able to participate due to injury or illness must submit a video to GCG-NTD a minimum of 3 weeks before the Elite Canada registration deadline. GCG-NTD will grant or deny the athlete's eligibility to Elite Canada and the decision is final. The GCG NTD will confirm with the coach in writing at least 14 days prior to the start of Elite Canada.

5.4.2.2 Minimum Standard - Apparatus

- a) The screening activity where the athlete must meet one of the standards:
 - MUST be a competition if **8** or more athletes are being screened in a given category;
 - MAY be a simulated competition if **7** or less athletes are being screened in a category.

5.4.2.3 Exemption

- a) The NT Director may grant an exemption from meeting the apparatus part of the screening process to an athlete who is ill or injured at the time of the screening activity held in the province with the submission of videos that meet the NTD's expectations for an athlete to be considered for High Performance.
- b) The PM – WAG may exempt an athlete in case of exceptional circumstances not identified in the process.

5.4.2.4 Sanction Procedures and Reporting Post Screening

- a) The P/T Association must inform the **PM-WAG** in writing that a competition or simulated competition recognized for screening purposes will be held at least 15 working days before the main activity
- b) The P/T Association must complete the post-screening report form. The report and all accompanying documents must be sent by email only to the National Office, attention of the **PM-WAG** prior to **the deadline for regular registration** for Elite Canada. The report must include:
 - i) in file #1: the completed post screening report on the form provided in the next pages (one file for all pages);
 - ii) in file #2: the detailed 'competition' results
 - iii) in file #5: the request for a coach exemption from NCCP Level 3 which will include all relevant information and a copy of the cheque. One file per request. Ex. 5.1, 5.2, 5.3

It is very important to list the athletes who did not meet one of the standards as this information will be used to determine whether or not a standard should be lowered.

- c) A P/T Association has one week to gather and organize the information related to the achievement of the standards, the exemption from the standards for athletes and the exemption from the NCCP requirements for coaches. All the documents must arrive at the National Office at the same time and in one email.

- d) For subsequent rotations, the first gymnast that competed in the previous rotation will drop to the bottom of the order of the next apparatus. When any group has 7 or more gymnasts, the first two gymnasts on one apparatus will be placed at the end of the group for the next apparatus for all groups. For this reason gymnasts may be moved to another group if there is a significant imbalance (± 2 gymnasts) in one (or more) group(s) occurring before the Qualification.
